Computers and electronics in class:

I recognize the benefit of being able to take notes and annotate papers using your laptop. Therefore, I won't expressly prohibit using these tools. However, one of the benefits of this class is being able to interact with your peers and engage in fruitful discussion on the topic, which laptops often inhibit. Also, research demonstrates that cognitive performance suffers dramatically with multi-tasking (but that the multitasker isn't usually aware of the detrimental effect). **Texting, gchatting, tweeting, instagramming, youtubing, fortniting, and the like are obviously not appropriate behavior during class.**

Changes to the syllabus:

In extreme circumstances, the syllabus and/or course schedule may be modified at my discretion. I will announce all changes via onQ.

Late policy:

One point (which translates to 10 percentage points) per day will be subtracted from late homework assignments.
