The graduate enrolment forecast is as an overall summary of departmental enrolment objectives, accounting for continuing students and new admission. Attached are several summary tables that include current and historical data reported according to full-time and part-time and international versus domestic status, by program and year of study. More detailed enrolment count reports are filed each November, February, May, and June with the Ministry of Training, Colleges and Universities.

The report and supporting tables highlight that actual enrolment meets or exceeds enrolment targets and projections in almost every Faculty and School.
